

Joint Study Group on India-Japan Cooperation based on Indo-Pacific Initiative

- Subject
1. Purpose:

“India-Japan Cooperation in Free and Open Indo-Pacific Initiative”

-Considerations and Recommendations on Areas of Comprehensive Cooperation from the Economic and Security Perspectives
 2. Issues to be addressed:
 - 1) Background

With the rapid rise of China and the relative decline of the U.S. influence, there is a concern about the destabilization in the Indo-Pacific, and the cooperation between India and Japan is of increasing importance.
 - 2) Interests shared by India and Japan with respect to China
 - (1) Economic Importance:

Biggest Trading Partner and Competitor
 - (2) Political/Military Caution:

Territorial land, territorial waters, and territorial airspace are all flashpoints, and there is a concern about China’s increasing international influence. Given this situation, it is essential that we strengthen the India-Japan cooperation, deepen coordination with ASEAN countries, avoid conflicts and co-exist with China.

Subject (3) “Japan and India Special Strategic and Global Partnership”:
Although the importance of the India-Japan partnership is often emphasized, there is an urgent need to materialize/accelerate the partnership.
This study group considers specific areas/activities for India and Japan to strengthen cooperation and presents recommendations.
